Internal Audit Maturity Benchmark Report

ORGANISATION	Riyadh Industrial Holdings Co.
INDUSTRY	Manufacturing
COMPANY SIZE	250-999
MATURITY TIER	defined

Report Date · 3 October 2026

Prepared for: Ahmed Al-Saud, Riyadh Industrial Holdings Co.

OVERALL MATURITY SCORE

68/100

MATURITY TIER
defined

BENCHMARK PERCENTILE
58th

Core processes are defined and repeatable. The focus now is consistency: embedding a standard methodology, formalising QAIP elements, and tightening follow-up discipline across engagements.

Dimension Analysis

Figure 1 — Maturity Score by Dimension

Governance & Operating Model 72/100	Risk Assessment & Planning 65/100
Strength: Clear reporting line to the Audit Committee or Board, with a formally approved and regularly reviewed charter.	Strength: Independently developed, risk-based audit planning aligned to the organisation's key risks.
Improvement: Strengthen independence safeguards and formalise governing-body evaluation of the CAE.	Improvement: Update the risk assessment continuously and strengthen coordination with other assurance providers.
Audit Execution & Methodology 70/100	Reporting & Follow-Up 68/100
Strength: Risk-based scope setting, documented supervisory review, and consistent delivery against deadlines.	Strength: On-time reporting with action tracking against defined due dates and clear escalation criteria.
Improvement: Standardise engagement methodology and deepen engagement-level risk assessments.	Improvement: Formalise follow-up discipline and define audit performance measures beyond plan completion.
Capability & Quality 63/100	
Strength: Structured competency assessment with development plans linked to identified gaps.	
Improvement: Mature the QAIP toward external assessment readiness and expand specialist expertise access.	

Benchmark & Peer Comparison

TOP 3 STRENGTHS	TOP 3 FOCUS AREAS
— Governance & Operating Model (72/100)	— Capability & Quality (63/100)
— Audit Execution & Methodology (70/100)	— Risk Assessment & Planning (65/100)
— Reporting & Follow-Up (68/100)	— Reporting & Follow-Up (68/100)

Strategic Recommendations

Phase 1: Immediate Priorities (0–30 Days)

- Standardise engagement delivery: enforce documented engagement-level risk assessments, supervisory review, and consistent methodology across all audits.
- Assess current control environment maturity in the Capability & Quality dimension and establish a remediation plan with clear ownership and timelines.

Phase 2: Medium-Term Enhancement (30–90 Days)

- Formalise action follow-up discipline: define due dates, escalation criteria, and regular overdue-action reporting to the Audit Committee.
- Formalise governance and quality assurance frameworks for Risk Assessment & Planning to ensure consistent methodology, control evidence integrity, and audit standard conformance.

Phase 3: Long-Term Operationalisation (90–180 Days)

- Introduce structured competency assessments to identify and close capability gaps in the audit team.
- Embed Governance & Operating Model capabilities into the broader internal audit operating model to drive compounded assurance coverage and risk insight value for the Audit Committee.
